

TO DO LIST FALL 2020

MENTAL HEALTH AND ADDICTIONS

- We will hold government accountable on its promises to build a mental health campus.
- We will seek a commitment to maintain access to mental health and addictions services if there is a second wave of COVID.

HOUSING

- We will demand action from government on resolving the housing crisis on PEI.
- We will seek a commitment from government to develop housing that is both affordable and accessible.

SOCIAL EQUITY AND INCLUSION

- We will continue to pressure government to consider the needs of all Islanders when developing plans that impact their security and dignity.
- We will ensure government does not continue to overlook Islanders who have specialized needs.

GREENER ECONOMY

- We will encourage government to develop a vision and a plan to safely navigate our post-COVID recovery.
- We will hold government responsible for building an Island that creates greater security and comfort for Islanders.

WATER AND LANDS PROTECTION

- We will demand government to finally present its plan for closing the loopholes in the existing lands protection legislation.
- We will pressure government to be better stewards and protectors of our land and water resources by using a scientific, evidence based decision making process.

TOURISM

- We will expect and pressure government to develop and implement a plan that will help tourism businesses adapt to the challenges of COVID.
- We will hold government responsible to help the tourism sector be properly prepared to become successful in our new normal.

HOLDING GOVERNMENT ACCOUNTABLE

- Building on the strengths of legislation we championed with government, we will continue to improve government policy in the areas of electoral reform, responding to emergencies, providing appropriate and needed programs and services for Islanders regardless of where they find themselves on the socio-economic spectrum.
- We will ensure government does not overreach or abuse its power as a slim majority government.
